TRIP TO NAPLES

NAPLES, A NEW CITY FOR THE 3'A,
THE ALPINE CLASS!

Naples: the city of folklore, food and ancient tradition concentrated in a small 3 day trip for the 3'A. The school trip started with a lengthy train ride all the way to Naples from Morbegno, departing from our families and usual habits to stay together in a new city.

As soon as we reached Naples we saw the welcoming and warm behavior of the Neapolitans, accompanied by the beauty of the city and its monument: from the smallest churches adorned by their paintings and artifacts to the most important sculptures like the "Cristo Velato", a masterpiece worked in marble resembling a soft veil. The city offered a large variety of traditional neapolitan foods for each and every one of the students to taste, like: fried pizza and the neapolitan pizza. The city is, in fact, considered the place where pizza was born. The students also delved into the story and underground of Naples, exploring old mining caves, buildings and houses that were once the surface of the city, now hidden in its underground by various floods.

WHAT DID THE TRIP LEAVE ON THE STUDENTS?

Not only did the students enjoy the city, but also got to know each other and their teachers much more, in a new environment, creating new bonds and friendships that will forever remain in their hearts.

Going back to the old routine and habits wasn't easy: slowly everyone adjusted to it, never forgetting the emotions and signs this trip will forever leave on them.
