## Our trip in Naples

On March 19th, the class 3A of the Damiani school started our trip at 5:48 from Morbegno's station.

Then we took the Freccia Rossa to go to Naples.

We arrived in Naples at 1:10 PM, then we put our suitcases in our small hotel: "Ostello bello".

On the first day in Naples, we visited the city. There we saw also **many church** and monuments. On the first day we ate at 8:30, the "pizza frita" at the "1947 Pizza Fritta". On the second day we also visited

many churches, then we visited: "Napoli sotterranea"! "Napoli sotterranea" was built like a labyrinth. In the evening we went to "Pizzeria Salvo".

At 9:30PM we went to the Castel dell'ovo before going to the hostel. On the third day, we visited the rest of Naples that we still had to visit. This time we visited the rest of the Roman's market under San Lorenzo church, too.

## Maradona

On the second day, we visited the Maradona's murals, a beautiful painting situated in "Quartieri Spagnoli".

## Cristo velato

Cristo velato is a statue this statue depicting Christ under a veil.

This statue is in a little church: "Cappella di San Severo".
